THINK FUTURE

We care about every journey you take, not just today, but for the future. T2 i-DM Super Hybrid Technology is designed with sustainability in mind, dedicated to making our planet more vibrant and lively.

Eco-friendly Efficient Intelligent Safe

RUGGED and EXQUISITE

Originating from the design style of T2, it embodies a boxy and resolute aesthetic concept. With minimalist lines shaping a rugged character, it expresses a deep respect for nature.

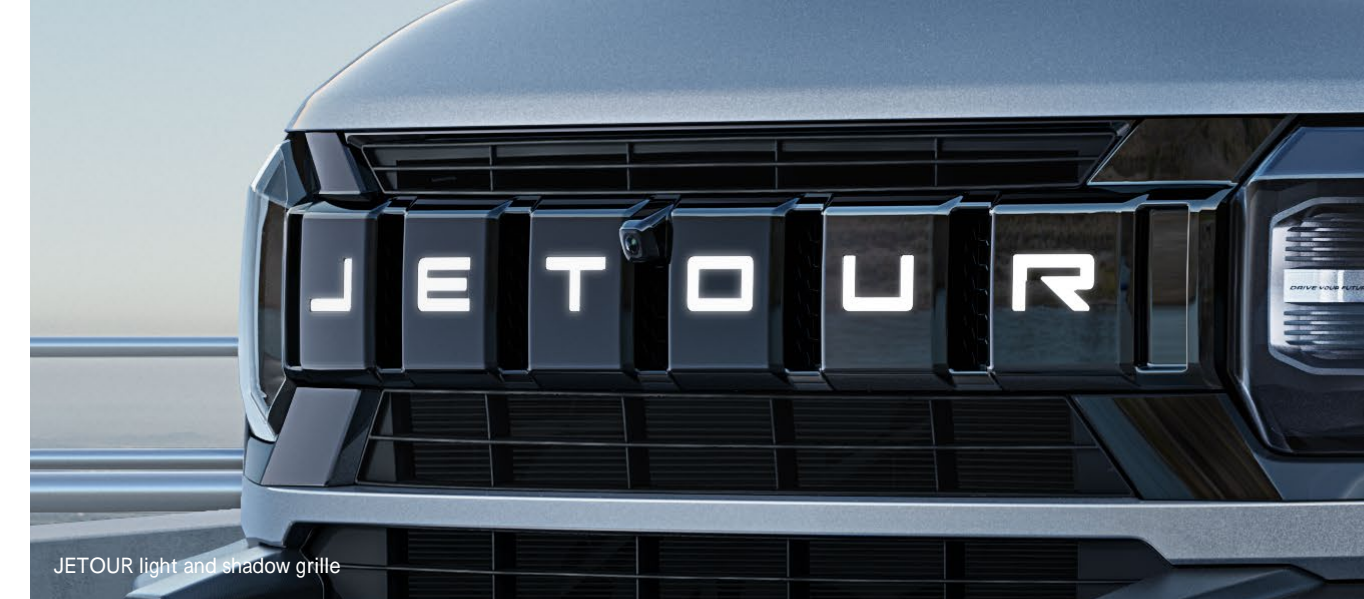

EXTERIOR

VHDL (Vertical and Horizontal Design Language) aesthetics, perfectly proportioned design and powerful body shape.

Ultra large body size and ultra long wheelbase that balance comfort and control

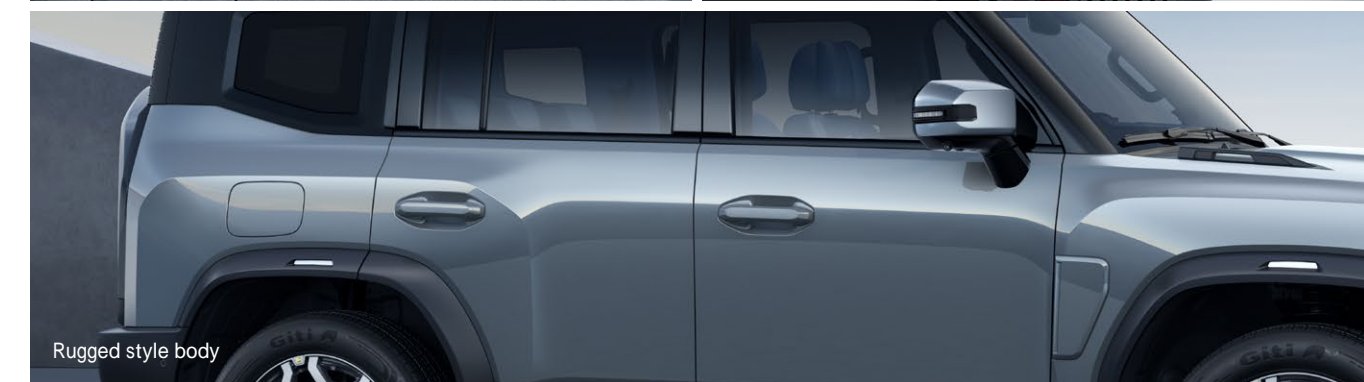

JETOUR light and shadow grille

Matrix headlights

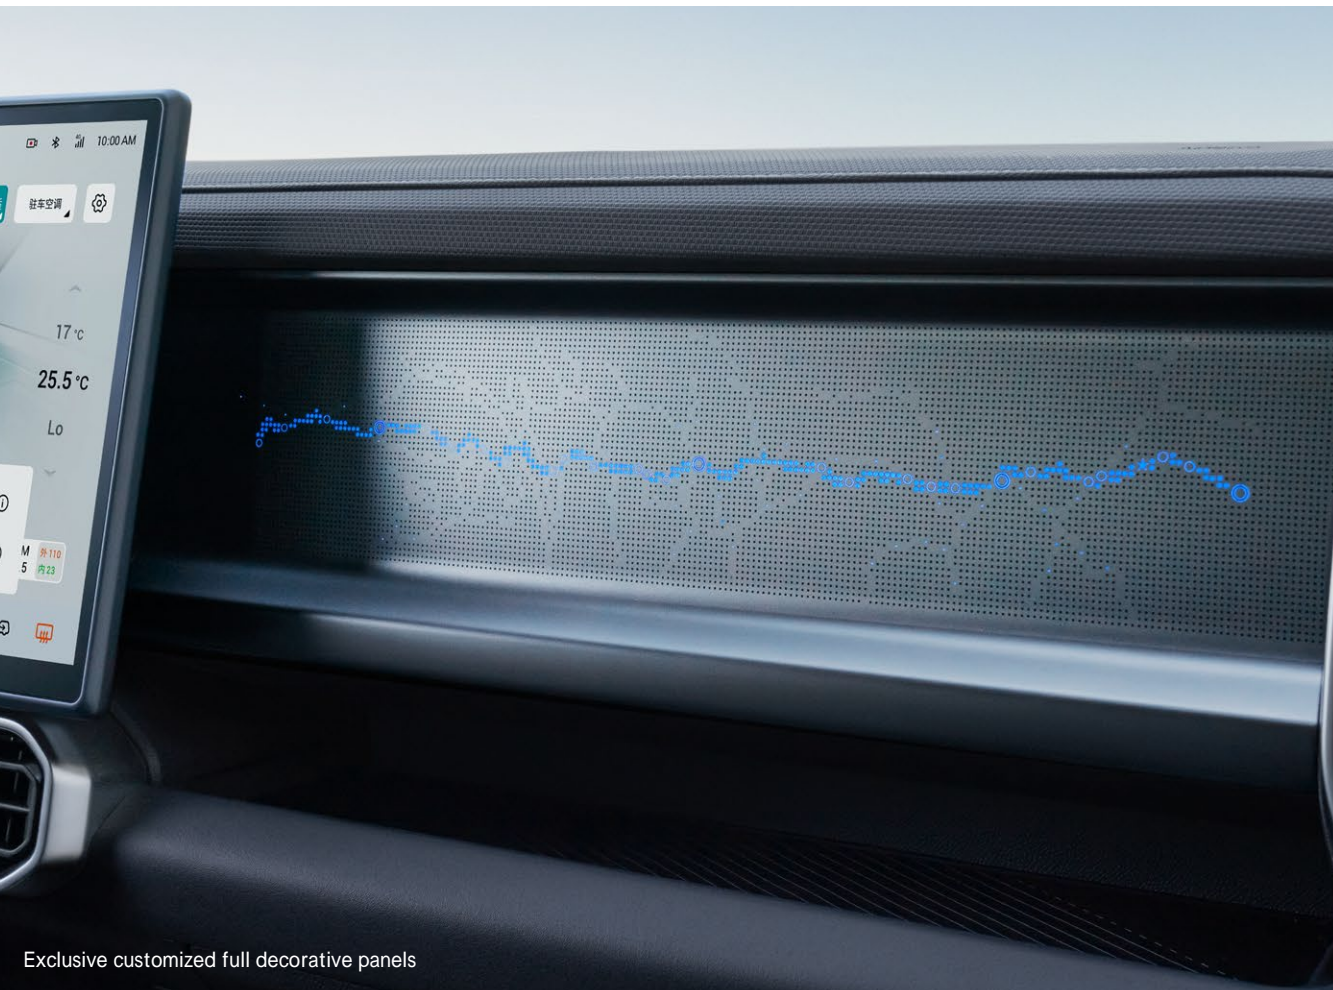

Streaming light-type taillights

Rugged style body

INTERIOR

Perfectly blend ruggedness with refined details. The materials are meticulously selected and the craftsmanship is refined to the highest standard.

Exclusive customized full decorative panels

Powerful handle

Rugged multi-functional steering wheel

Light luxury suede seats

Well-designed co-pilot

64-inch panoramic sunroof

Super hybrid technology i-DM

Outstanding engines and hybrid systems, both explosiveness and endurance. Smoother ride, stronger acceleration, more economical fuel consumption and better quietness

High Energy Efficiency High Performance High Safety High Intelligence

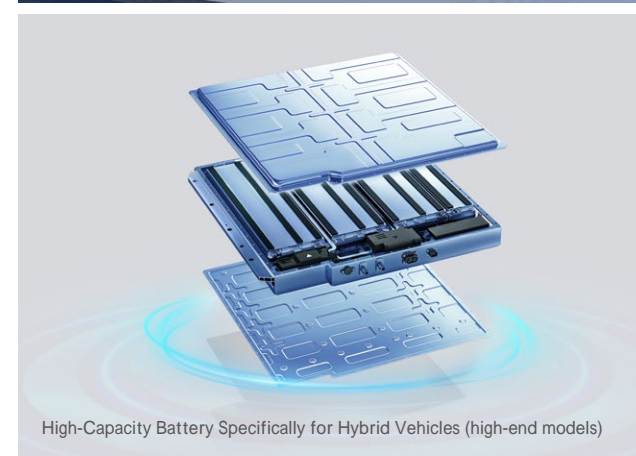

A world-class hybrid-specific engine with the two major advantages of high efficiency and low energy consumption

Dual motor drive + 3-speed DHT, with a maximum combined power of 280kW and a maximum combined torque of 610N.m

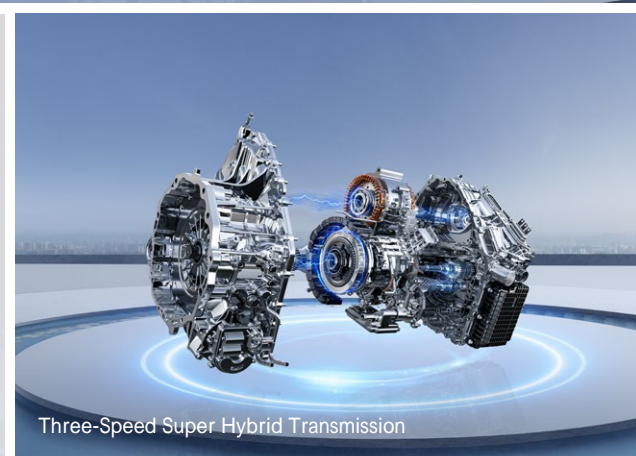

With a battery energy of 26.7kWh
1000km+ combined ultra-long driving range
139km NEDC pure electric driving range

The Fifth Generation 1.5 TGD High-efficiency hybrid-specific engine

High-Capacity Battery Specifically for Hybrid Vehicles (high-end models)

Three-Speed Super Hybrid Transmission

Intelligent technology

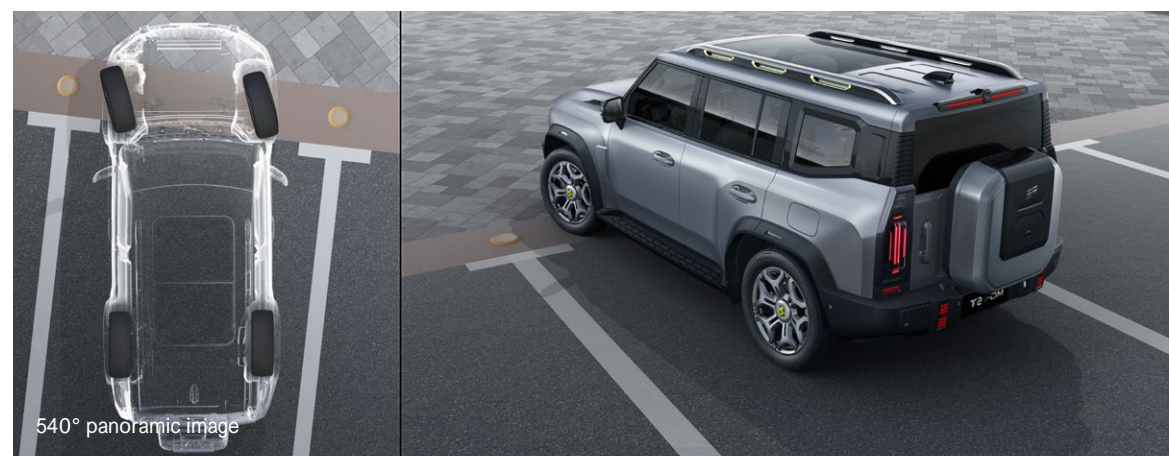

People-oriented, using technology to empower every journey.
Ultra-high intelligent configuration makes the trip full of fun and excitement.

Snapdragon 8155 Smart Chip

15.6-inch central control screen

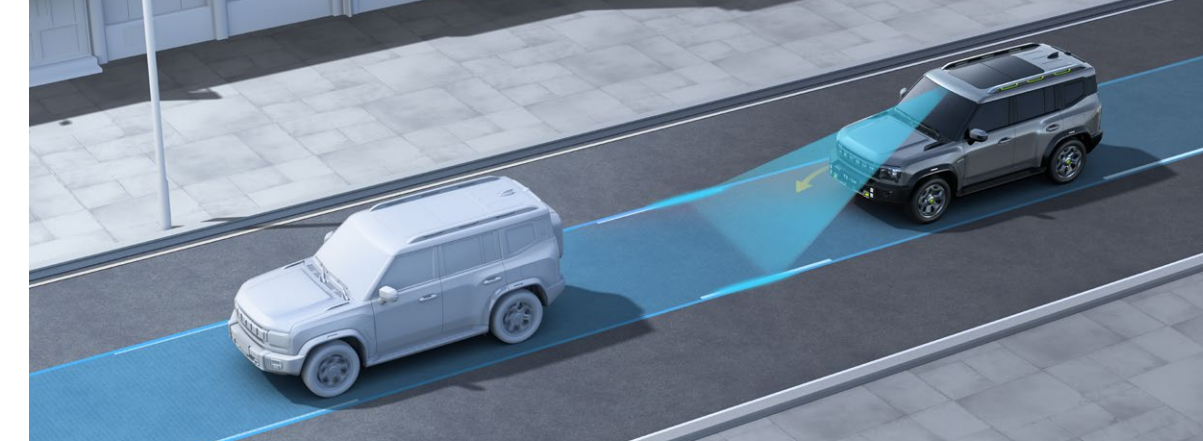

540° panoramic image

8-core automotive chip with a 7nm process, capable of performing 8 trillion operations per second.

Over-sized screen, and makes the touch operations more accurate

360° panoramic image + 180° transparent car bottom

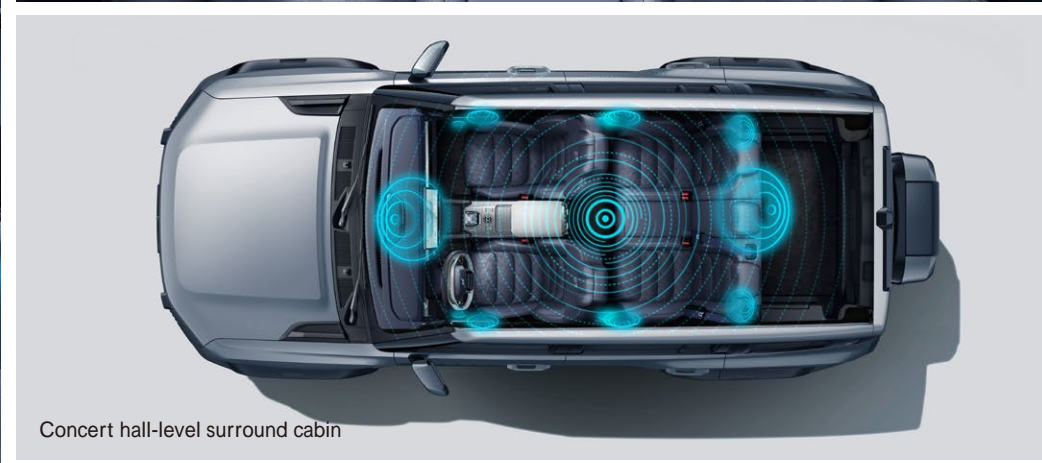

L2 Intelligent driving assistance
FCW、LDW、BSD、DOW、RCTA、AEB、TJA、LKA、ACC

Five-star health cabin

Library-level quiet cabin

Concert hall-level surround cabin

50W mobile phone wireless fast charging

Premium Standard

Carefully selected materials, craftsmanship perfected to the highest standards, and striving for perfection in every detail, all to provide users with a better driving experience

100+ kinds of environmentally-friendly materials

Multi-layered soundproof glass

12-channel SONY premium Hi-Fi system

32000N-m/deg body torsional stiffness

Safety

Comprehensive protection to the fullest, ensuring that every passenger on board is always safe and secure at all times.

Steel cage body structure

High-strength steel accounts for up to 80%

Arrayed high-density roof

The top pressure resistance reaches 147kN

Travel+ Life

Extensive interior and exterior space, fully equipped for camping living

4785x2006x1875 (mm) super large space

50+ storage spaces

Fold the second-row seats flat, and enjoy a king-sized bed

Magic Electric Tailgate

3.3kW vehicle to load

Parking cooler

Basic parameter

Vehicle colors

Interior colors

Black & blue

Black & green

A panoramic view of a coastal landscape. On the left, the ocean transitions from deep blue to a vibrant turquoise near the shore. A winding asphalt road curves along the edge of a steep, forested hillside on the right. The hills are covered in dense green vegetation. In the distance, more hills and a small town are visible under a bright, slightly hazy sky. A small car is visible on the road in the lower right.

Embracing nature through hybrid technology.
T2 i-DM infuses endless possibilities into every journey.
